Our Response to the Declaration of a State of Emergency

[We decided to have all employees working at the head office work at home from March 26](#) with the aim of preventing the spread of the new coronavirus (COVID-19) infection, in response to the Tokyo Governor's request on March 25.

We have decided to extend the period until May 6, in response to a state of emergency which the Japanese Government declared on April 7.

Our power plants are operating as usual while avoiding “Closed spaces” “Crowded places” “Close-contact settings”. We will also closely monitor the situation, the government's decision and administrative policies so that we will be able to respond quickly and appropriately.

We will continue to operate our power plants with safety foremost in our mind.

We will appreciate your understanding and cooperation.
