Notice Concerning Impact of Earthquake occurred in centered off the coast of Miyagi Prefecture

RENOVA, Inc. expresses its support and solidarity towards those who have recently been impacted by the earthquake that occurred in centered off the coast of Miyagi Prefecture at about 18:09 on March 20, 2021.

We have confirmed that this earthquake has not caused any damage that would have a material impact on our under developing projects and our operating and under construction large-scale solar PV plants and biomass plants in Tohoku regions.

If any new damage occurs in the future, we will immediately make another announcement.
